

**Department of Economics
University College London**

**Research Associate (Postdoctoral)
(Further Particulars)**

About University College London

University College London (UCL) is the largest of the colleges in the federation that makes up the University of London. It is consistently rated as one of the top multi-faculty universities in the UK and has an annual turnover in excess of £400m. UCL is one of the UK's premier research institutions encompassing immense research strength across all areas. It is also developing numerous interdisciplinary research centres. UCL has an excellent library and the library resources available in London, such as the British Library, are unrivalled in the UK.

About the Centre for Research and Analysis of Migration

CReAM is an interdisciplinary research centre based in the Department of Economics at UCL conducting research on migration and labour economics. The main offices are situated in Drayton House, a recently refurbished building adjacent to UCL's main campus in central London. The Centre shares the building with the Department of Economics. The researchers will work in Drayton House.

The Positions

CReAM has one opening for a postdoctoral position for up to three years starting July 1 2010 or earlier.

Salary

The starting salary for this position will be on UCL Grade 7 (28,983 - 35,646) per annum plus £2,795 London Allowance, depending upon experience.

Main Duties

The candidate will participate in projects relating to the NORFACE-funded research project: Migration: Integration, Impact and Interaction or to *CReAM*'s other research activities on labour economics. Details will be discussed with the Principle Investigator of the project, Uta Schönberg.

Qualifications

The researcher will have obtained a PhD in economics and will have demonstrated an aptitude for research of the highest quality. The researchers will have interpersonal skills and intellectual breadth.

Essential Qualifications

- A thorough knowledge of economic theory, statistics and econometrics. Experience in handling data sets and knowledge of statistical and econometric software.
- Commitment to high quality research and ability to work collaboratively and as part of a team.
- Fluency in English is essential.
- Commitment to UCL's policy on equal opportunities.
